ORDINANCE NO. 88-5

AN ORDINANCE AMENDING PART OF SECTION 10.16.05 USE OF THE PUBLIC SEWERS, SETTING LIMITATIONS FOR THE GREEN BAY ATKINS PICKLE PLANT PERTAINING TO ITS DISCHARGE OF WASTEWATER INTO THE ATKINS COLLECTION SYSTEM, AND FOR OTHER PURPOSES.

WHEREAS, the Atkins North Wastewater Treatment Facility is nearing completion, and

WHEREAS, pursuant to an agreement entered into between the City of Atkins, Dean Foods Company, and Green Bay Food Company on August 26, 1986, which provides for limitations for the pickle plant owned by Green Bay located in the City of Atkins for the discharge of wastewater into the Atkins collection system.

NOW THEREFORE, BE IT ORDAINED BY THE CITY COUNCIL OF THE CITY OF ATKINS, ARKANSAS:

SECTION 1. Part of Section 10.16.05 Use of the public sewers page 111 of the Atkins Municipal Code concerning limitations for the Green Bay Food Atkins pickle plant pertaining to its discharge of wastewater into the Atkins collections system is hereby amended to read as follows:

The following limitations for the Green Bay Atkins Pickle Plant pertaining to its discharge of wastewater into the Atkins collections system shall be in effect beginning the 1st day of December, 1988:

1. Maximum allowable instantaneous wastewater discharge rate from all sources:
   Between 6:00 a.m. and 6:00 p.m. 310 GPM
   Between 6:00 p.m. and 6:00 a.m. 630 GPM

2. Average allowable monthly flow rate over any three consecutive months:
   May through October 9.0 MG
   November through April 5.25 MG

3. Maximum allowable single month flow rate:

   May through October 13.5 MG
   November through April 7.9 MG

4. Maximum allowable total flow over any three consecutive months: Such flow will be the sum of the average allowable monthly flow rate shown above in item (2) for any such three month period.

5. Average allowable monthly discharge of BOD over any three consecutive months: 90,000 lbs.

6. Maximum allowable single month discharge of BOD: 135,000 lbs.

7. Maximum allowable total discharge of BOD over any three consecutive months: 270,000 lbs.

8. Average allowable monthly discharge of TSS over any three consecutive months: 90,000 lbs.

9. Maximum allowable single month discharge of TSS: 135,000 lbs.

10. Maximum allowable total discharge of TSS over any three consecutive months: 270,000 lbs.

11. Maximum allowable monthly concentration of chlorides from pre-treatment basin: During any month that the average discharge of chloride concentration exceeds 1,860 mg/l from the pretreatment basin, it shall be determined and accepted by Green Bay that the Atkins pickle plant is in violation of Atkins Municipal Code Chapter 10.16 for exceeding the monthly discharge concentration limit of chlorides.

12. pH range: 5 to 9.

13. Maximum allowable points of discharge to the city's wastewater collection system: Two (2).

SECTION 2. This ordinance being necessary for the preservation of the health and safety of the residents of Atkins, an emergency is hereby declared to exist and this ordinance shall be effective immediately upon and after its passage and approval, this 15th day of November, 1988.
